Ground floor: strength of the zones

Share of the plot area in each division, in its colour; below the lower balance line reads as a cut, above the upper line as an extension.

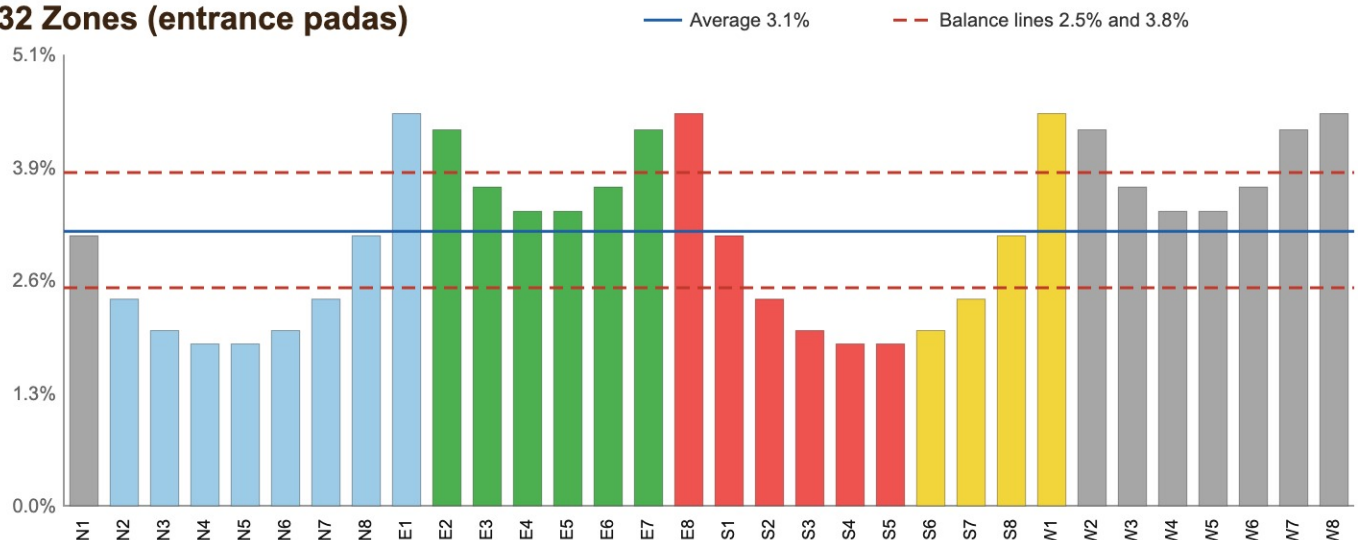

8 Directions

16 Zones

32 Zones (entrance padas)

Observations and recommendations

Summary

This sample report was prepared on a demonstration plan to show the format and the depth of each edition. It does not describe a real property or real people.

Recommendations / notes

Sample recommendation: keep the north-east light and uncluttered, and review the use of Toilet 2 with the family before suggesting any change.
